A INTRODUCTION OF THE EVENT

The Final SEC-Tools Project International Conference was organized as part of EEBW 2008 Conference, November 12-13, Prague, Czech Republic (www.eebw.cz).

Title: Final SEC-Tools Project International Conference
“EU Strategies in Municipal Energy Sector and Experiences of Municipal Energy Efficiency Projects”

Date: November 13, 2008

Location: Prague (Kaiserstejnsky Palace), Czech Republic

Organizer: SEVEn, The Energy Efficiency Center (WP6 leader)

Dissemination: The event was disseminated individually at national levels of the project partners and at the EU level, and also as part of the programme of the EEBW 2008 Conference

Target groups: Representatives of municipal sector, representatives of public institutions, energy agencies, wider expert public (energy auditors, journalists etc.)

Number of participants: about 65 persons

Programme: The programme of the event was content from three sessions:

- EU Strategies in Municipal Energy Sector
- Czech Good Practise Examples of Energy Savings Projects in the Cities and Villages
- International Experiences of Municipal Energy Efficiency Projects

Detail information is at the next pages

Presentations: All the presentations from the event available in the pdf format in the attachment and otherwise also downloadable at: <http://www.sec-tools.cz>

B PROGRAMME OF THE EEBW 2008 CONFERENCE

The event was organized as part of a 2-day long conference titled “EEBW 2008 – EFFICIENCY – TOMORROW'S ENERGY SOURCE”. The conference was organized by SEVEN, The Energy Efficiency Center, with the aim to address the issue of how to achieve better energy efficiency from different perspectives (political, technical, organizational) and in different sectors and end-uses of energy including municipal sector.

The **1st conference day** was open November 12, by a plenary session with speeches made by prominent representatives of the Czech Republic, Netherlands, and multinational organizations (Czech Prime Minister Mirek Topolánek, Dutch Prime Minister Jan Peter Balkenende, Deputy Minister of the Environment of the Czech Republic Ales Kutak, former Minister of the Industry and Trade of the Czech Republic Vladimír Dlouhý, Chief Economist of the Shell International BV Steven M. Fries, General Director of SKANSKA CZ Jindřich Topol, etc.).

In the afternoon programme of the 1st conference day, other parts of the conference took place, as sessions:

- Scenarios of reducing energy intensity of the economy
- Technological and regulatory issues in transportation
- Driving Behaviour - concluding event of IEE project ECODRIVEN

During **2nd conference day**, besides SEC-Tools event, second part of the conference was held the same time, as sessions:

- Financing projects in the area of the energy industry and energy services
- Energy services in practise
- Innovative solutions decreasing energy intensity
- Low - energy architecture and energetics in the building sector

Before the SEC-Tools event again one session was held:

- Lighter Tomorrows for Households, Business and Street Lighting

The final SEC-Tools project international conference contained following sessions:

- EU Strategies in Municipal Energy Sector
- Czech Good Practise Examples of Energy Savings Projects in the Cities and Villages
- International Experiences of Municipal Energy Efficiency Projects

C PROGRAMME OF THE SEC-TOOLS CONFERENCE

The sessions of the final SEC-Tools project international conference contained following presentations:

C.1 1st session

EU Strategies in Municipal Energy Sector

- Covenant of Mayors - A New Initiative of the European Commission
by Roman Doubrava, European Commission, DG Tren, Brussels, Belgium
- Sustainable Energy Communities - SEC-Tools Project and Trends in the EU
by Nils Daugaard & Kaj Leonhart Petersen, ECNet, Denmark
- Development of EU Strategies in Municipal Energy Sector - CONCERTO Breaks New Roads
by Hans Nilsson, FourFact, Sweden
- The European Energy Award® a European certification and quality management system for energy-efficient municipalities
by Leonard Meyer, B.&S.U., Germany

C.2 2nd session

Czech Good Practise Examples of Energy Savings Projects in the Cities and Villages

- Environmental Policy of the City of Prague in the Field of Energy Efficiency
by Petr Stepanek, Councillor of the City of Prague
- Sustainable Development of the South Bohemian Region in View of Energy Consumption
by Lubos Prusa, Director of the South Bohemian Regional Authority
- Knezice – Self-sustaining Municipality by Energy Consumption
by Jan Sturma, SKANSKA CZ
- Experiences on Energy Auditing for the City of Milevsko
by Ivana Straska, Deputy Mayor, City of Milevsko

- Sustainable Energy: Significant Topic for Municipal Policy
by Antonin Tym, Healthy Cities of the Czech Republic

C.3 3rd session

International Experiences of Municipal Energy Efficiency Projects

- Tools for Energy Planning at Municipal Level
by Anders Andersen, EMD, Denmark
- Biomass Promotion in Latvian Municipalities
by Uģis Strazdiņš, Strasa, Latvia
- Pilot Actions on SEC Practice in Ustka
by Katarzyna Grecka, BAPE, Poland
- Helpdesk for SEC Development in Lithuanian Municipalities
by Rimantas Zabarauskas, ALAL, Lithuania
- Regional Aspects of the SEC Example from Brandenburg / Germany
by Georg Wagener-Lohse, CEBra, Germany

All the presentations from the event available in the pdf format in the attachment and otherwise also downloadable at: <http://www.sec-tools.cz/aktivity>

D DISSEMINATION AND PARTICIPATION

D.1 Dissemination

The event was disseminated individually at national levels of the project partners and at the EU level, and also as part of the programme of the EEBW 2008 Conference

Each partner of the SEC-Tools project invited all potential participants in own country.

F.E.D.A.R.E.N.E. managed dissemination of the SEC-Tools project conference by its newsletter, which was distributed to several thousands potential participants

SEVEN organized dissemination of the event by several ways:

- individual webpage of the event (www.eebw.cz)
- advertisements in magazines (6 Czech magazines, as Modern Municipality, Technical Newsweek, etc.)
- banners at websites (9 websites, as www.tzb-info.cz, www.sec-tools.cz, www.svn.cz, etc.)
- distribution of the event materials at another conferences and seminars
- distribution of the invitation to the event by mail to more than 1.500 potential participants

D.2 Participation

For second day of the EEBW 2008 conference, i.e. the day of the SEC-Tools conference, the organizer registered 138 participants.

It could not be selected only participations of the SEC-Tools conference, but there were more than 60 participants.

Review of the registered participants for 2nd conference day available in the attachment.

E PHOTO DOCUMENTATION OF THE EVENT

The event and especially the final SEC-Tools project international conference is presented by selected photos:

F ATTACHMENTS

In the attachments are:

- review of the registered participants for 2nd conference day
- presentations from the SEC-Tools project conference in the pdf format (individual files)
